System and Circuit Design for Biologically-Inspired Intelligent Learning
# Table of Contents

Preface .................................................................................................................. XV

**Chapter 1**
Biologically-Inspired Learning and Intelligent System Modeling ................................. 1

*Giovanna Morgavi, IEIIT-National Research Council, Italy*

**Chapter 2**
Representation of Neuro-Information and Knowledge................................................. 20

*Frank van der Velden, Leiden University, The Netherlands*

**Chapter 3**
Learning: A Psychological Perspective ...................................................................... 41

*Frank van der Velden, Leiden University, The Netherlands*

**Chapter 4**
Biologically-Inspired Learning: An Overview and Application to Odor Recognition .......... 59

*Turgay Temel, Bahcesehir University, Istanbul, Turkey*

**Chapter 5**
Optimality-Oriented Stabilization for Recurrent Neural Networks ............................. 93

*Ziqian Liu, State University of New York Maritime College, USA*

**Chapter 6**
Design of Globally Robust Control for Biologically-Inspired Noisy Recurrent Neural Networks ........................................................................................................... 116

*Ziqian Liu, State University of New York Maritime College, USA*

**Chapter 7**
A Biologically Inspired Evolving Spiking Neural Model with Rank-order Population Coding and a Taste Recognition System Case Study .................................................................. 136

*S. Soltic, Manukau Institute of Technology, New Zealand & Auckland University of Technology, New Zealand*

*N. Kasabov, Auckland University of Technology, New Zealand*
Chapter 8
Faster Self-Organizing Fuzzy Neural Network Training and Improved Autonomy with Time-Delayed Synapses for Locally Recurrent Learning ................................................................. 156

Damien Coyle, University of Ulster, UK
Girijesh Prasad, University of Ulster, UK
Martin McGinnity, University of Ulster, UK

Chapter 9
Biologically-Inspired Learning and Intelligence: Analog Circuit Design with Fuzzy Inference .... 184

Turgay Temel, Bahcesehir University, Istanbul, Turkey

Chapter 10
A Biomimetic Adaptive Algorithm and Micropower Circuit Architecture for Implantable Neural Decoders ........................................................................................................ 216

Benjamin I. Rapoport, Massachusetts Institute of Technology, USA & Harvard Medical School, USA
Rahul Sarpeskar, Massachusetts Institute of Technology, USA

Chapter 11
FPGA Coprocessor for Simulation of Neural Networks Using Compressed Matrix Storage .......... 255

Jörg Bornschein, Goethe University Frankfurt am Main, Germany

Chapter 12
Neural Network Circuits for Embedded Sensors Applications .................................................. 276

N. Mediano, Universidad de Zaragoza, Spain
G. Zatorre, INCIDE S.A., Spain
M. T. Sanz, Instituto Nacional de Astrofísica, Óptica y Electrónica, México
B. Calvo, Universidad de Zaragoza, Spain
S. Celma, Universidad de Zaragoza, Spain

Chapter 13
Parallel Hardware for Artificial Neural Networks Using Fixed-Floating Point Representation ........ 295

Nadia Nodjah, State University of Rio de Janeiro, Brazil
Rodrigo Martins da Silva, State University of Rio de Janeiro, Brazil
Luiza de Macedo Mourelle, State University of Rio de Janeiro, Brazil

Chapter 14
A Novel DCGA Optimization Technique for Guaranteed BIBO-Stable Frequency-Response Masking Digital Filters Incorporating Bilinear Lossless Discrete-Integrator IIR Interpolation Sub-Filters ......................................................................................................................... 309

Syed Bokhari, University of Alberta, Canada
Behrouz Nowrouzian, University of Alberta, Canada
Chapter 15
Neuromodeling and Natural Optimization of Nonlinear Devices and Circuits ........................................ 326

Paulo H. da F. Silva, Federal Institute of Education, Science and Technology of Paraíba, Brazil
Rossana M. S. Cruz, Federal Institute of Education, Science and Technology of Paraíba, Brazil
Adaildu G. D’Assunção, Federal University of Rio Grande do Norte, Brazil

Compilation of References ......................................................................................................................... 349

About the Contributors .............................................................................................................................. 378

Index .......................................................................................................................................................... 384
